

## Mend Control Gaps For Fast Savings

### The Problem

- Organizations continue to invest considerable resources into prevention only to find Financial Leakage still occurs within the Cost Cycle (P2P).
- Healthcare Organizations are especially challenged due to a wide variety of *Complexities*, considerable reliance on *Compliance*, and consistent *Change* within the Business Environment.
- Due to these challenges, healthcare organizations struggle to gain complete visibility to the “Dark Data” embedded in the cost cycle process.

### The Solution

Identifying, “Cleansing”, and providing Visibility to the “Dark Data” embedded in the Cost Cycle Process.

A SpendMend recovery audit is the first step toward improving spend visibility. Benefits include:

- Deeper Spend Visibility
- Actionable Analytics
- Immediate ROI
- Sustainable Long-Term Value
- Peer Benchmarking

*Gain Control, Confidence, and Containment with Increased Visibility Funded by Cost Recovery*
